DETAILED ACTION

Response to Amendment

The Examiner acknowledges the amending of claims 9 and 22.

Allowable Subject Matter

Claims 9-14 and 22-28 are allowed.

The following is an examiner's statement of reasons for allowance:

The Examiner believes that the current claim amendments differentiate from that of the cited art. Previously, the claims detailed only circuit components and a loose description of their coupling. The current amendments add specific function to the circuit elements and thus specify how they must be coupled. The prior art may teach the use of these components, but not in a way which reads upon the claimed functionality. For these reasons the device claim 9, and the method claim 22 describing operation of the device, is believed to be allowable over the prior art.

Claims 10-14 and 23-28 are allowable as they are dependent from allowable claims 9 and 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
